

Power and Portability

The 100-240 VAC universal power adapter can be operated from virtually any power source and can automatically switch to adapt to different power and voltage lines. When plugging in your machine is not an option, the built-in, rechargeable lead acid battery will provide power for 50 continuous hours, ensuring uninterrupted operation for more than a full work week!

Adapter connection cover underneath the scale is spring loaded to ensure the power receptacle is protected from the ingress of moisture, especially when the scale is washed down.

Non-Slip Leveling Feet

Large fully rubberized feet are located at extreme corners of the scale to ensure a wide stance and surface resistance that minimizes the risk of the scale sliding or falling off smooth surfaces. The rubber of the feet extends to the shaft that ensures no grooves are exposed when fully extended; a design that passes NSF standards.

Simple Operation with largest LED display

Valor 2000 was designed with the basic weighing needs of the food industry in mind. The LED display window is 20.5mm (0.8 inch) high, which is bigger than most competitive products. It is exceptionally easy to setup and operate, resulting in increased productivity.

Application Modes

- **Weighing** — Determine the weight of items in the selected unit of measure.
- **Check Weighing (V22XW only)** — Use the bright red/yellow/green LED's to easily fill containers and packages by weight – great for sorting, grading and portioning.

Certifications

The Valor 2000 is Certified to NSF/ANSI 169 Special Purpose Food Equipment and Devices and is USDA-AMS Accepted to NSF/ANSI /3-A 14159-1 Hygiene Requirements for the Design of Meat and Poultry Processing Equipment.
